SUMMERY

Backend .NET Developer with hands-on experience building enterprise web applications using ASP.NET Core MVC, Entity Framework Core, SQL Server, and REST APIs. Developed complete systems including an ERP Inventory Management System and an E-commerce platform, covering backend architecture, authentication, database design, and deployment. Passionate about clean architecture, scalable backend systems, and solving real-world business problems.

WORK EXPERIENCE

HighTech E-commerce Platform (Z-Tone Technology)

- Developed a full-stack E-commerce platform using ASP.NET Core MVC, Entity Framework Core and SQL Server.
- Implemented product, category, order and inventory management modules.
- Built secure authentication and authorization using ASP.NET Identity.
- Designed the relational database schema and business logic.
- Deployed the application to Render.

ERP Inventory Management System

• Developed a complete ERP Inventory Management System using ASP.NET Core MVC, Entity Framework Core, SQL Server and Bootstrap.
• Implemented inventory tracking, purchase orders, sales orders, suppliers, warehouse management and inventory history.
• Designed normalized relational database with Entity Framework Core.
• Implemented ASP.NET Identity authentication and role-based authorization.
• Developed FEFO inventory management for products with expiration dates.
• Built dashboards and reporting modules.
• Applied Repository Pattern and clean backend architecture.
• Designed a normalized SQL Server database with Entity Framework Core.
• Implemented role-based authorization using ASP.NET Identity.

INTERNSHIP

- **Backend .NET Trainee – DEPI (Digital Egypt Pioneers Initiative)** — **Dec 2025 – July 2026**
  - Completed an intensive Backend .NET training program.
  - Built enterprise web applications using ASP.NET Core MVC, Entity Framework Core and SQL Server.
  - Implemented Authentication & Authorization using ASP.NET Identity.
  - Designed REST APIs and relational databases.
  - Applied Clean Architecture concepts and Git workflows.
- **Full Stack PHP Intern – NTI (National Telecommunication Institute)** — **Aug 2025 – Sep 2025**
  - Completed an intensive Full Stack PHP training program.
  - Developed dynamic web applications using PHP and MySQL.
  - Implemented backend logic, CRUD operations, and database integration.
  - Worked on front-end and back-end communication.
- **Full Stack .NET Intern – Mansoura University Training Program** — **Jul 2024 – Sep 2024**
  - Completed a hands-on Full Stack .NET training program.
  - Built web applications using ASP.NET, C#, and SQL Server.
  - Implemented CRUD operations, authentication basics, and API integration.
  - Applied OOP principles and database design concepts.

EDUCATION

Bachelor of Computer Science — **Expected Graduation: 2027**

- **Misr Higher Institute for Commerce and Computers**

SKILLS

- C#, Java, JavaScript, SQL
- ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, LINQ, Identity
- SQL Server
- HTML5, CSS3, Bootstrap, JavaScript
- OOP, Data Structures, Algorithms, REST APIs, Authentication & Authorization
- Git, GitHub, Visual Studio, Postman, Render
